-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3653

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 13 through 15, 17, 21, 22, 27 and 31 through 33 are rejected under 35 U.S.C. 102(b) as being anticipate by Tsukamoto.

Tsukamoto teaches a sheet media feeder comprising a biasing structure to bias media sheets toward a media engaging structure and an adjustment control 19 connected to the biasing structure to adjust the biasing force applied to the media sheets. See column 2 lines 10-47.

3. Claims 1 through 3, 13 through 15, 17, 21, 22, 27, 32 and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Yergenson.

Yergenson teaches a sheet media feeder comprising a biasing structure including spring 22 and an adjustment control operably secured to the biasing structure to adjust a biasing force applied to the media sheets (see abstract lines 19-32, column 1 lines 39-42 and column 2 line 61 through column 3 line 17).

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of

Art Unit: 3653

the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Tsukamoto in view of Peter.

Tsukamoto fails to an ink jet printer.

Peter teaches a sheet media feeder employed with an ink jet printer. See abstract.

It would have been obvious to one of ordinary skill in the art to have the printer of Tsukamoto be an ink jet printer as taught by Peter rather than a copier.

7. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yergenson in view of Peter.

Yergenson fails to teach an ink jet printer.

Peter teaches a sheet media feeder employed with an ink jet printer. See abstract.

It would have been obvious to one of ordinary skill in the art to have image forming apparatus associated with the sheet media feeder of Yergenson be an ink jet printer as taught by Peter.

8. Claims 4 through 12, 18 through 20, 23 through 26, 28 through 30, 34 and 35 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H Bollinger whose telephone number is 703-308-1113. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Donald Walsh, can be reached on 703-306-4173. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
